► Technical Specifications

No.	Item	Unit	Spec.
1	Rated voltage	V	3.7V
2	Rated current	mA	<1900mA
3	Waterproof	/	IPX7
4	Power supply	/	Lithium battery (built-in)
5	Charging time	H	10±2H
6	Timer	Min	5 min
7	Thermal temperature	℃	55±5℃ (at room temperature of 15-35℃)

► Parts Description

- ① Brush head ② Speed + ③ ON/OFF/Mode button
- ④ Speed - ⑤ Indicator light ⑥ USB cable
- ⑦ Charging port ⑧ Massage head ⑨ Sucker
- ⑩ Magnetic induction charging base

[Note] This product is with the lithium battery so that the USB is ONLY for the induction charging base. Do not put any metal on the charging base to avoid accident scald from high temperature.

► Functions

EMBI Thermal Silicone Facial Cleansing Brush comes with a flexible brush head at a 30-degree angle, featuring 12 circles of 0.6mm extremely fine touchpoints, and 55°C thermal care. It is designed to help create considerable foams easily and remove dirt, oil and makeup residue from your pores effectively for an unprecedented facial cleansing experience, making your skin silky-smooth and velvety.

► Indications

No.	Status	Indicators
1	"Normal cleaning" mode	Yellow indicator light on when ON/OFF/Mode button is pressed to enter "normal cleansing" mode to enjoy vibration with thermal treatment → the device will be auto-off after 5 minutes.
2	"Deep exfoliating" mode	White indicator light on when the ON/OFF/ Mode button is pressed again to switch to "deep exfoliating" mode to enjoy vibrations of continuously variable transmission → the device will be auto-off after 5 minutes.
3	Speed switching	Press "Speed+" or "speed-" to switch speed.
4	Low battery	Indicator light twinkles when the power is lower than 30%; the device will be auto-off when the power is lower than 10%.
5	In charging	Yellow indicator twinkles.
6	Fully Charged	White indicator on.

► How to Use

The device is ideal for both facial cleansing and thermal massage. You can follow the routine as below or choose one according to your skincare needs.

► Facial cleaning

Wet your face with warm water.

Apply cleanser on and wet the brush head.

Turn on the device into "normal cleansing" mode.

Put the brush head right on your palm for 10 seconds till it foams.

Glide the device over your face with a suitable mode.

Switch to "deep exfoliating" mode within 5 minutes.

Glide the brush head along your hairline, sides of the nose, and chin to remove dirt hard to reach.

Turn off the device when finishing cleansing.

Rinse the device and your face with water after use.

► Thermal SPA

Apply some facial essence on your face.

Turn on the device into "normal cleansing" mode.

Glide the massage head all over your skin in a bottom-up motion.

The device will be auto-off after 5 minutes.

Rinse the device and then keep it dry.

[Tips] There are 8 intensities for each mode, and the device will work at a mode used last time; you are free to increase or decrease the speed within 5 minutes after which the device will be auto-off.

► Safety Precautions

Do not use the device

- if you have swelling, surgery, sunburn or other skin symptoms in the area to be treated.
- together with silicon-soluble or grainy facial cleanser, peeling cream, etc.
- directly on your eyeballs.
- in the same area for a long time.

Remove off your solid objects such as watch, glasses, false eyelashes, and contact lenses before use.

Do not share the device with others.

<p>⊘ Do not leave the product alone while it is working.</p> <p>ON</p> 	<p>⊘ Do not use the product while it is charging.</p> 
<p>⊘ Do not disassemble the product by yourself.</p> 	<p>⚠ The product is charged by putting on the charging base connected to power with the USB cable.</p> 
<p>⊘ Do not use the product if the silicon cover is damaged.</p> 	<p>⚠ Ensure the power plug/cable is all in good condition without any damage to prevent an electric shock.</p> 
<p>⊘ Do not use the product if it is hit or falls to the ground heavily unless it is given a safety check.</p> 	<p>⊘ Keep the power supply away from heat.</p> 

► Cleansing

Rinse the device with water right after each use, and place it on its charging base.

Never immerse the device in water for a long time.

► Storage

Keep the device in a dry and dust-free place.

Keep the device away from high temperature.

Keep the device out of the reach of children.

► FAQ

Q	A	Solution
